How do I order shelves? At this point, tighten on of the 7/16" bolts to keep the hinge from being loose when the door is removed. The door must be installed in the open position in order for the square pin to line up and drop into hinge bracket. Click here for Service Network Listing How do I change my door gasket? At this point, the correct tension is set. These instructions apply to left hand doors also. Food Service Parts Distributors: click here Who do I call for service? Click here to view shelf information Where can I get a replacement compressor for one under warranty? The gasket is opposite your leg and the spring cartridge is in the upper corner from the floor. Contact one of our Parts Distributors - click here for your local Parts Distributor. Reduce cost, downtime and have your equipment running at top performance when you need it most. Be careful not to pull too hard because the plastic molding the gasket is attached to can break. HOW CAN WE HELP? Install 5/16" screw into bottom of cartridge. Loosen the 7/16 bolt on the bottom hinge bracket and raise door to highest position and tighten both hinge bolts. Install both plastic washers, with the horseshoe washer in between, with the opening toward the gasket. The door gasket is removed by grasping it in one corner and pulling outward and down. To remove door, lift door up to the clear bottom hinge, then move bottom of the door away from hinge and slowly lower straight down, allowing the door to come completely off. One person should apply a strip of masking tape from one side of the door, across the spacers and spring, up the other side to hold these parts in place while door is being installed. Where do I send my warranty labor bill? Using a 7/16" open-end wrench, loosen both bottom hinge bolts until the door drops about 1/2 inch. We Do It Right The 1st Time!
